## Profile

Highly motivated Web Developer and Syrian refugee with a passion for technology and its ability to create positive change. Seeking an entry-level position in a results-driven, diverse tech company where I can apply my skills and commitment to producing clean and efficient code to support a collaborative team in reaching its goals. Committed to ongoing learning and eager to make a significant impact in the tech industry.

- **Coding languages** : JavaScript, Typescript, CSS, HTML.
- **Stack** : React, Next.js, JQuery, Handlebars, Grid, Flexbox, Material-UI, Redux , Jest, React-testing-library, Jest, ES6, Node.js, Express, PostgreSQL, MongoDB, Socket.io, AWS, Git, Github, Netlify, Heroku, Next-JS.

## Projects

### E-commerce (on going)

Oct 2022    [📍 Berlin](#)

[Demo - Github](#)

*Full Stack using React.js, Node.js.*

- This full-stack e-commerce website features a responsive design, product browsing, cart management, and PayPal integration.
- Developing this project allowed me to acquire valuable skills in programming, design, and project management, such as front-end and back-end development, and time management.

### Interior Designer Website (Freelance)

Sep 2022 — Oct 2022    [📍 Berlin](#)

[Demo - GitHub](#)

*Frontend SPA using React.js*

- Highlight interior designer's portfolio and provide an easy contract process..
  - Draw upon real-world project experience to deliver a good user experience.
  - Got lots of experience working on a real life project.
- **Stack** : React, Material-UI.

### Weather Forecast

2022    [📍 Berlin](#)

[Demo - GitHub](#)

*Frontend SPA using React.js*

- Developed a weather forecasting app that adapts to the user's location.

## Hobbies

I like cooking, playing ping pong and kayaking.

- Improved skills in API integration and app structure through Agile Development methodology.
- **Stack** : React, Material-UI, Jest, React testing Library.

## Previous Experience

### - Digital Career Institute , Full Stack Web Development

May 2022 — Sep 2022   📍 Berlin

- Gained experience building React, JavaScript, Typescript and even Vanilla Javascript Apps.
- Learned debugging and testing applications as well as new libraries.

### - SPICED Academy, Full Stack Web Development

Apr 2021 — Jul 2021   📍 Berlin

- Full stack intensive web development bootcamp where i learned the Fundamentals of JavaScript, HTML, CSS and the back-end.
- Built lots of Front-end and Full-Stack projects.

### - Online courses, Web Development

2020   📍 Berlin, Germany

- **Web Developer bootcamp** : Learned the Fundamentals of JS, HTML, CSS and the backend.
- **The advanced Web Developer bootcamp** : Learned React, ES6, CSS Animations.
- **React Testing Tutorial** : Helped me test my React Components and functions.
- **Understanding TypeScript - 2022 Edition** : Learned Typescript and built a project using it.
- **Next.js Tutorial for Beginners** : Learned the basics of Next.js and applied it on a small project.
