Projects

Weather Forecast

2022   Berlin

Demo - GitHub

Frontend SPA using React.js

Forecasting the weather involves recording the ongoing measurements of temperature Depending on where you are in the world.

Building this app helped me get better at fetching from an API and well structuring my app by mimicking Agile Development.

- **Stack** : React, Material-UI, Jest, React testing Library.

TodoList

2022

Demo - GitHub

Frontend SPA using React.js and Typescript.
 A list of things that one wants to get done or that need to get done.
 Got more comfortable with Typescript after applying my knowledge of Typescript on this project.
- **Stack** : React, Typescript, Material-UI.

Portfolio

2021

Demo - GitHub

Frontend SPA using React.js

Portfolio is the place where you can navigate through my projects, demo them, and clone them and you can take a look at my Resume and download it and contact me by sending me an Email.

This is the first project i did completely by my self so I learned how to build, plan, maintain a project on your own.

- **Stack** : React, Material-ui, Email.js, react-typing-effect, animate.css, Netlify.

Social-Network

2021

Demo - GitHub

Full Stack SPA using React.js & Node.js

Social-Network is a project where users can communicate with each other, create profiles, upload photos, chat with online users in a public chat room.

- **Stack** : React, Redux, Node.js, Express, Socket.Io, PostgreSQL, AWS S3, Heroku.
